The mod features two new myth games, in which you must kill all the monsters in the given time to win. The added myths will be added to the myth game gamemodes that were already in the base game, and the player can now choose between new and old game styles. There are five new myth games, all which are based on real myths, and in the sixth game the player must kill the monster to the right, while in the other game the monster has a gun and must be killed before he can kill the player. There are three new myth characters, all of which are heavily based on myth characters. A fourth myth character was added in the beta version of the mod, but removed due to bugs and confusion. The mod features new weapons, clothing, and cars. There are five new vehicles, including a Porsche and a Mercedes-Benz, both of which have a racing style. There are 10 new weapons, including a flamethrower, a laser gun, a bazooka, a rocket launcher, and a sniper rifle. There are five new clothing items, all of which feature oversize and ridiculously large clothing. Gameplay To play the mod, the player must complete the Grand Theft Auto: San Andreas myth missions, and then the player can choose to play the new myth missions, or play in an old style myth game. The player must kill all monsters in the given time to win, and more monster can spawn as time passes. Each monster has different skills, and they can be used in a number of ways, such as starting fires, knocking out vehicles, and shooting players. The mod contains five new myth characters, and there are 10 new weapons and five new myth characters. There are two new missions, and the mod is also compatible with Grand Theft Auto: San Andreas: The Lost and Damned, as well as Grand Theft Auto: Liberty City Stories. The player can make changes to a number of things, such as weapons, clothing, cars, and the amount of credits the player receives after the missions. The mod has more than 1000 lines of code and is around 14MB in size. Reception The Ultimate Myth Mod received mixed reviews from critics. Game Revolution praised the mod, but noted that some missions were difficult to complete, and were asking too much from the player. The mod was praised for having big improvements to the existing myth game modes, such as having more bonus items and more challenges. The mod was criticized for the lack of new myths 82157476af
